prologue

As a family, we have always been driven to bring **innovative products** to market that combine **ease of use** with thoughtful and stylish design. We cherish our roots and let our values speak for themselves in everything we do.

We are extremely proud to offer a range of products that embody Belgian craftsmanship, ease of use, and sustainability. We control the production process in-house from start to finish, as our products are manufactured by our experienced craftsmen in our new, state-of-the-art factory in **Kortrijk, Belgium**.

Sofie Brutsaert - CEO Prostor

Why choose Prostor?

Welcome to Prostor, where innovation, ease of use, and sustainability come together. With over 50 years of experience in sun protection, we combine passion, craftsmanship, and expertise with a personal touch to create premium parasols that take outdoor living to the next level.

Enjoy the sun thanks to our smart solutions

- ✓ Stylish and functional designs
- ✓ Open your parasol quickly and effortlessly with the ONE MOVE SYSTEM
- ✓ Create 6 to 38 m^2 of shade per parasol
- ✓ Customize your parasol with our tailor-made options

Prostor means:

Ease of use

Sustainable materials

Belgian craftsmanship

Cantilever Umbrella

The cantilever umbrella is equipped with a side base. This offers **maximum flexibility** in terms of positioning and use. Depending on the available space and desired shade zone, it is available with 1 to 4 parasols on 1 pole.

Tables and chairs can remain in place thanks to the one-move system. The parasols can be easily opened and closed above the table in one sliding motion.

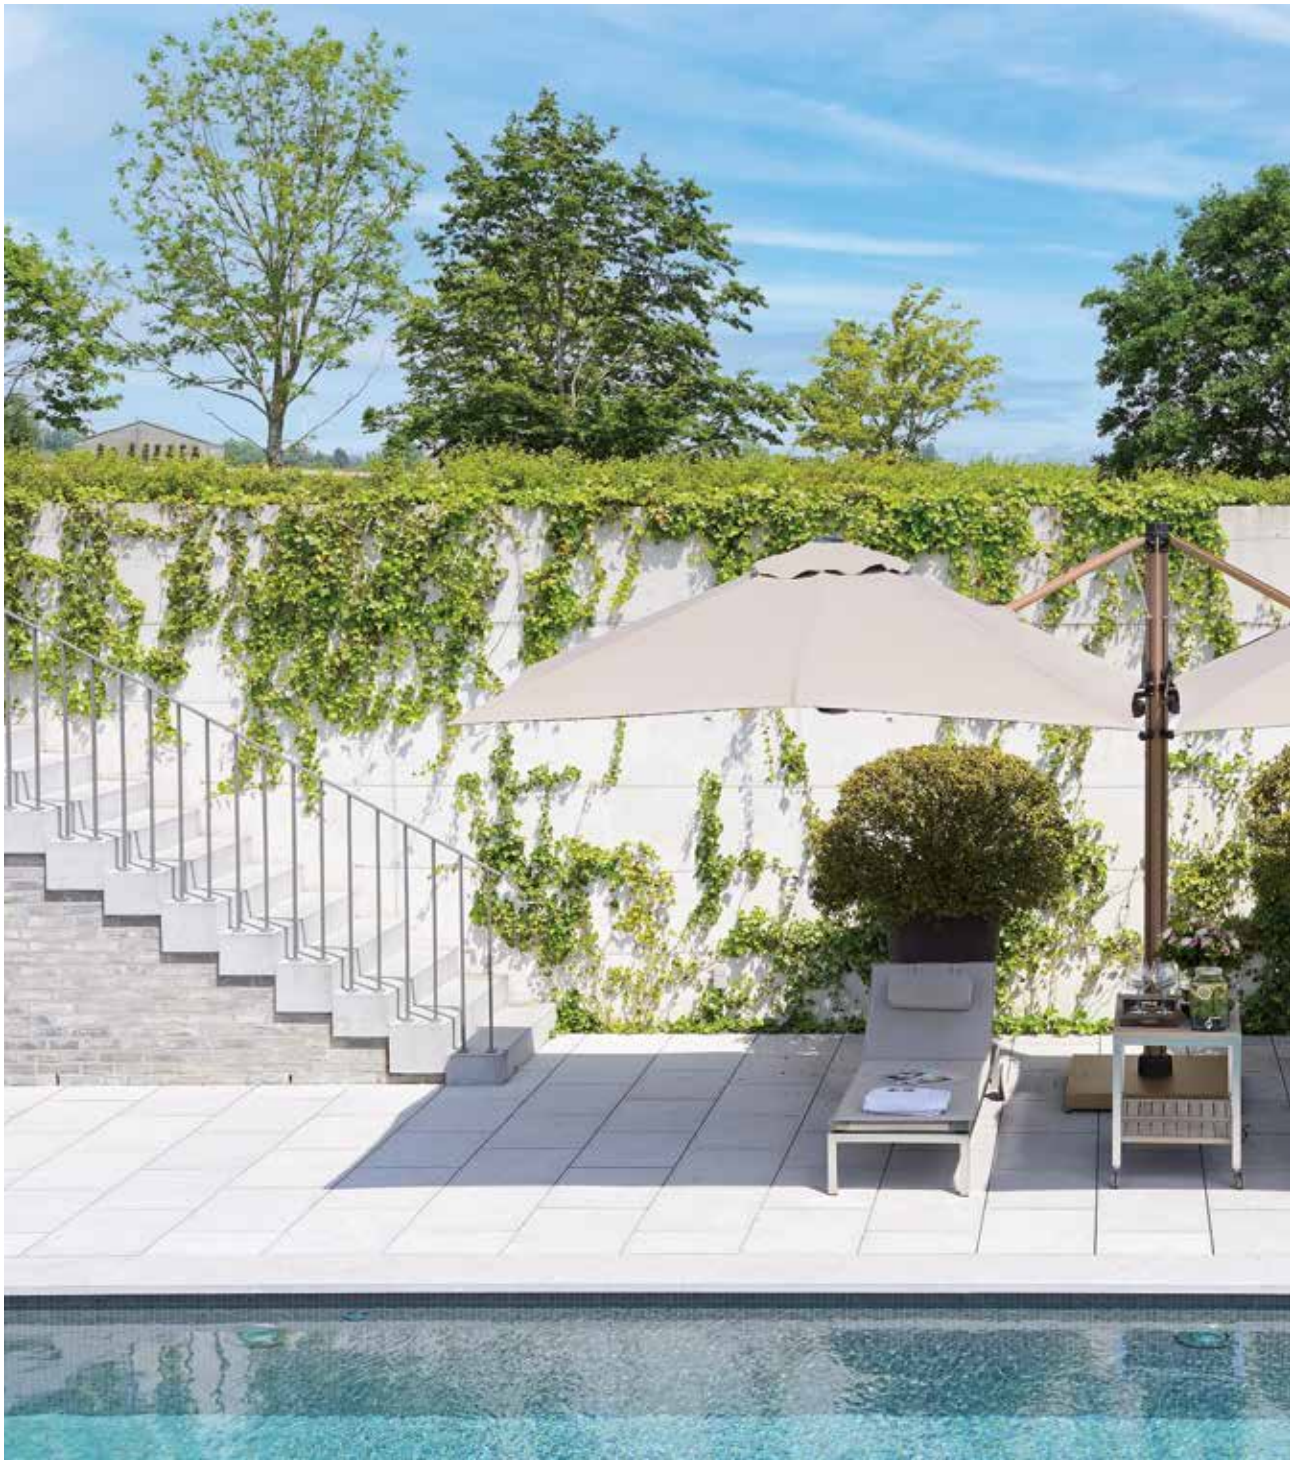

PROSTOR P6

The Prostor P6 is a highly functional and modular parasol with up to 38 m² of coverage. The pole can support up to 4 parasols and opens in 5 seconds. Equipped with heating and LED lighting, it's suitable for hospitality and private use. Featherlight to use, the P6 can be mounted on a wall and offers everlasting sun protection.

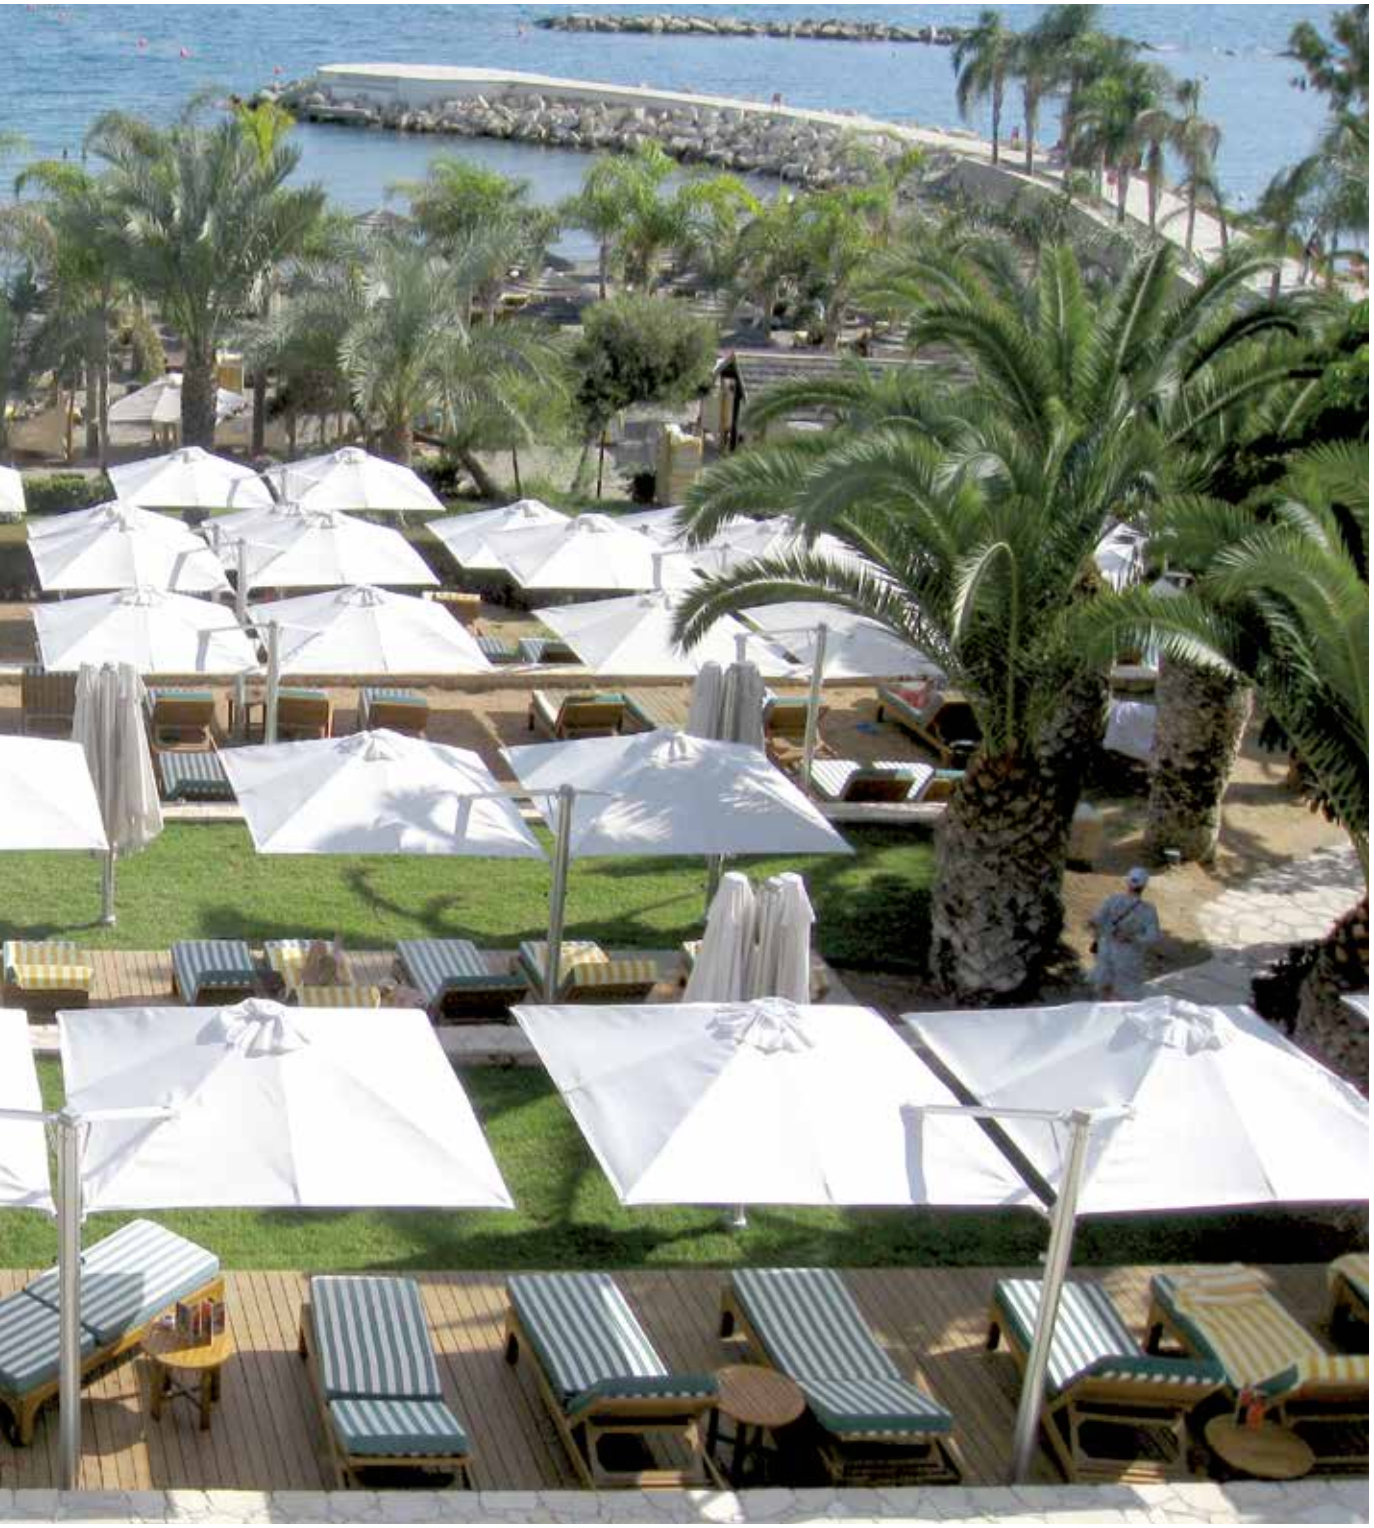

P6

features P6

Endless shade pleasure

One umbrella system can cover an area of up to 38 m², allowing you to cover sizable terraces while minimizing the loss of valuable space, all while maintaining a stylish aesthetic.

Up to 4 parasols on one pole

The Prostor P6 is a highly functional and modular parasol with up to 38 m² of coverage. The P6 is suitable for hospitality and private use.

Durable alu and stainless parts

We guarantee everlasting sun pleasure thanks to the durable aluminum parts. All parts are individually replaceable.

Easy opening in 5 seconds

You don’t have to be strong to operate the P6 umbrella. The patented One Move System helps you to open or close the umbrella easily in one movement.
The umbrellas are featherlight to handle, thanks to the stainless steel gas spring.

LED Glow on mains power or with battery set

The LED Glow is a stylish, dimmable lighting solution, available in warm white or RGB. The LED Glow can also be easily added to all new and existing P6/P7 parasols.

Opening above the table

No need to move the table to operate the umbrella. The umbrella opens or closes above standard tables and chairs.

P7

PROSTOR P7

The Prostor P7 combines durability with stylish design. This single-mast parasol can be rotated up to 300°, allowing you to move the shaded area without moving the parasol itself. It also features the One Move system, which allows you to open and close the parasol effortlessly. Heating, LED lighting, and wall mounting are also available for the P7.

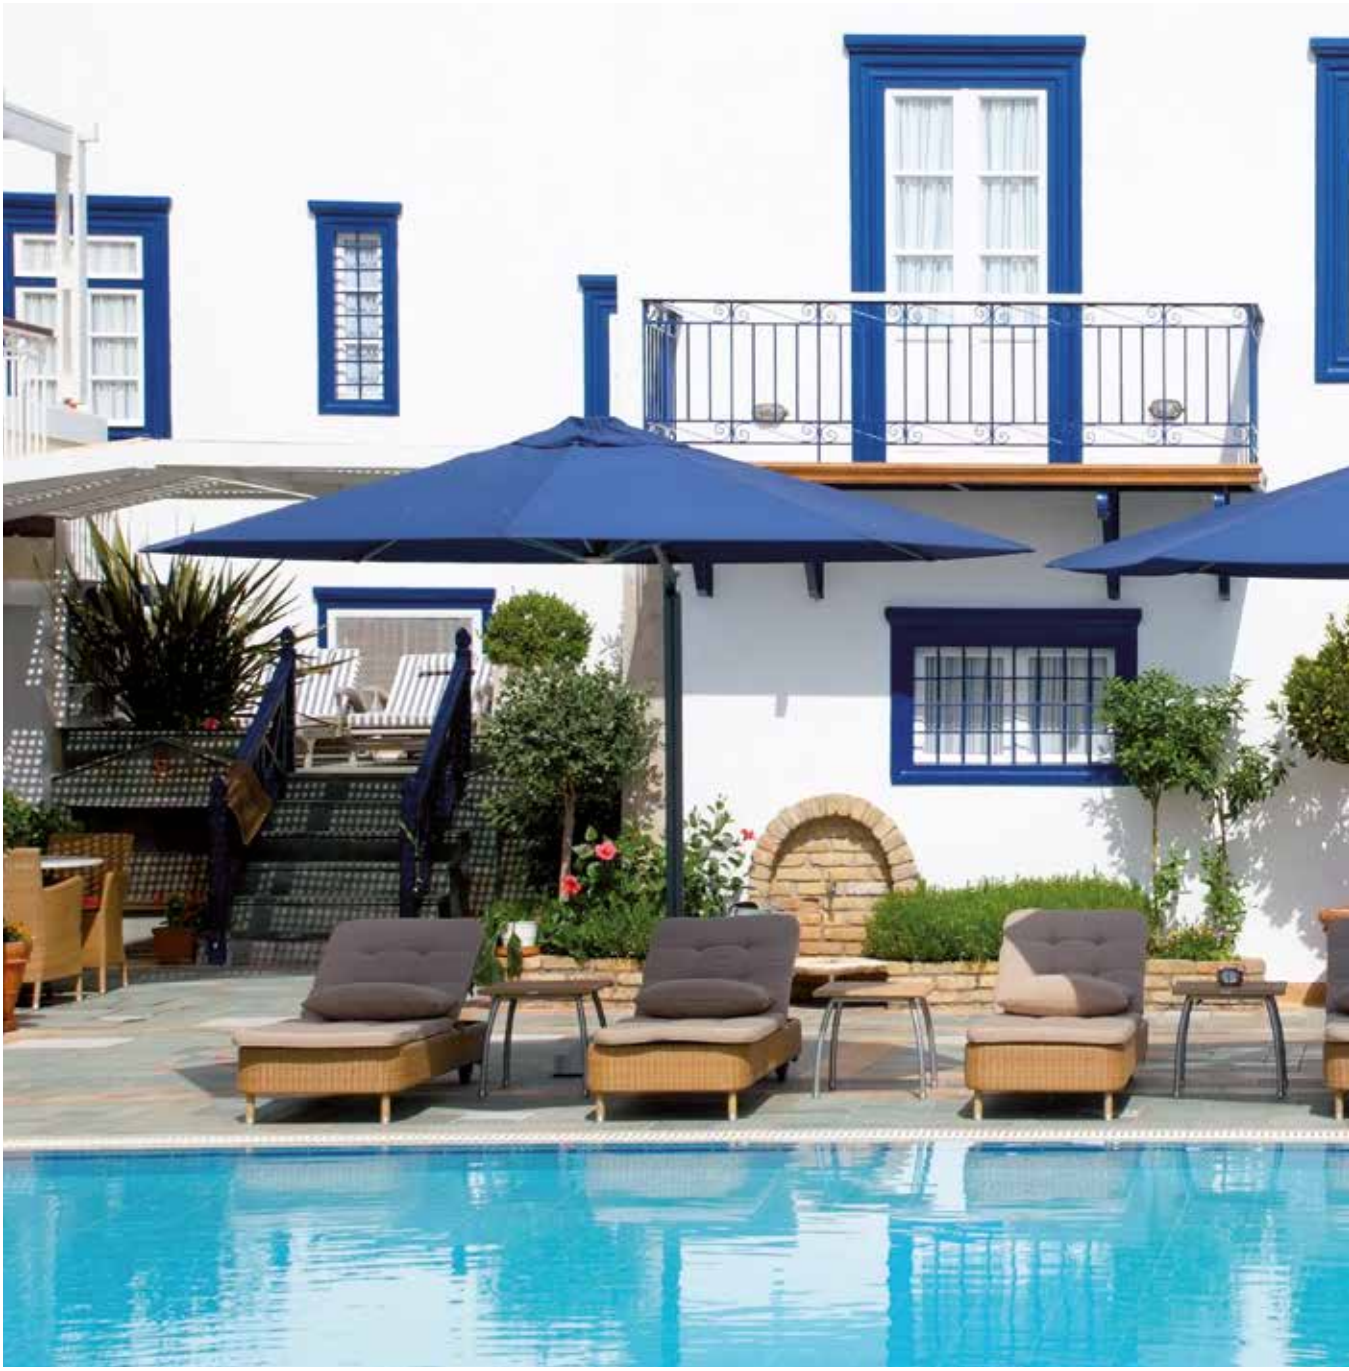

P7

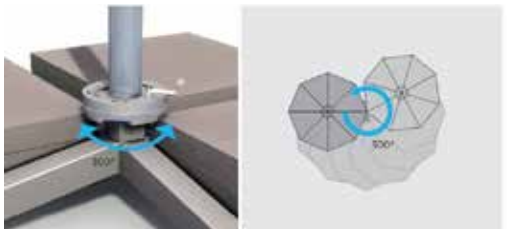

features P7

Shade each time of the day

With the ability to rotate 300°, the P7 is designed to offer shade coverage throughout the day. Additionally, the small axle feature secures the umbrella in place, preventing any spinning caused by wind.

300° rotatable

The Prostor P7 parasol can rotate up to 300°, allowing you to easily follow the sun. This means you can always enjoy optimal shade, at any time of the day.

Up to 15 m^2 of shade pleasure

The P7 model, whether in round or square shape, provides a shade coverage of up to 15 m^2, ensuring maximum pleasure and comfort.

Durable alu and stainless parts

We guarantee everlasting sun pleasure thanks to the durable aluminum parts. All parts are individually replaceable.

Easy opening in 5 seconds

You don't have to be strong op operate the P7 umbrella. The patented One Move System helps you to open or close the umbrella easily in one movement. The umbrellas are featherlight to handle, thanks to the stainless steel gas spring.

LED Glow on mains power or with battery set

The LED Glow is a stylish, dimmable lighting solution, available in warm white or RGB. The LED Glow can also be easily added to all new and existing P6/P7 parasols.

central pole umbrella

The best-known type of parasol is undoubtedly the classic freestanding parasol with a central pole. All Prostor freestanding parasols combine elegance and ease of use. Thanks to their flexibility, freestanding parasols are ideal as eye-catchers/mood creators or as shade providers on your patio.

P8

PROSTOR P8

The Prostor P8 is a large and stylish outdoor shade solution. It has an elegant and functional design, including a dimmable LED light and heating. The P8 is featherlight to operate, opens in 5 seconds, and is perfect for those who think big. Embrace the sun with the Prostor P8 parasol.

P8

features P8

Integrated LED Lights

The integrated white LED light within the spokes provides a warm and elegant lighting solution. This dimmable LED lighting can be controlled via a remote control and creates the perfect ambiance.

Durable alu parts

We guarantee everlasting sun pleasure thanks to the durable aluminum parts. All parts are individually replaceable.

Easy opening in 5 seconds

You don’t have to be strong to operate the P8 umbrella. The One Move System helps you to open or close the umbrella easily in one movement. Thanks to the well-balanced weight, the umbrellas are effortless to handle.

Opening above the table

No need to move the table to operate the umbrella. The umbrella opens or closes above standard tables and chairs.

Wall-mounted umbrella

The Prostor wall parasol is **unique** on the market thanks to its generous size. The sturdy wall brackets replace the traditional base, **saving you a lot of space**. The P7 parasol can be swiveled horizontally for **perfect shade positioning** and can be **opened, closed, and stored compactly** against the wall with ease. With a P6, up to two parasols can be mounted on one wall bracket.

P6

PROSTOR P6

WALL-MOUNTED

The Prostor P6 is a versatile parasol. Thanks to its modular design, up to two parasols can be mounted on a single pole on the wall, providing up to 18 m² of shade. The wall parasol is mounted with a fixed wall bracket. The wall parasol excels thanks to its space-saving design with an ultra-stable mounting. The One Move System ensures that the parasol can be opened and closed effortlessly.

PROSTOR P3-P4

The Prostor P3 and P4 are wall-mounted parasols that are perfect for those with limited space who want to make the most of their terrace or garden. Both models feature horizontal pivoting and an extendable arm for maximum sun protection, and are designed with ease-of use in mind.

features P3-P4

Wall-mounted for optimal space use

Our wall-mounted P3-P4 umbrellas are the perfect solution for those who want to save space on their terrace. By eliminating the need for a parasol base, you can fully enjoy your outdoor area without any obstructions.

Can swing horizontally

Our umbrellas pivot horizontally, providing even more flexibility and coverage options.

Telescopic arm, extendable up to 1,8m

Use the adjustable arm of the umbrella to position it optimally and protect yourself from the sun all day long.

Can be tilted

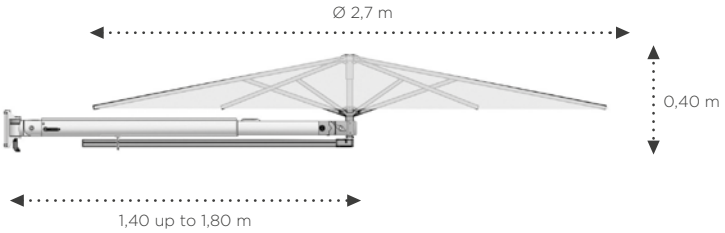

The parasol has the ability to tilt up to 10 degrees, allowing for protection against the glare of the low sun.

Fabric colour

Choose from a wide range of fabric colours from our trusted suppliers to suit your preferences.

Special fabric features

Fire-retardant fabric (e.g. Firemaster) for enhanced safety.

Frame / pole colour

Customise your P6, P7 or P8 model in any RAL colour for a perfect match with your surroundings.

Valances

Add valances to square P6, P7 and P8 models. Valances can easily be attached to the fabric using the pre-installed zippers.

Logo printing

Personalise the fabric or valances with a logo using thermofoil full-colour printing.

Sustainability

SHADE WITH A FUTURE

At Prostor, we believe that outdoor comfort should go hand in hand with care for our planet. That is why our parasols are developed with a strong focus on sustainability — from design and production to years of reliable use.

We deliberately choose high-quality, durable materials that withstand sun, wind and rain, ensuring each parasol has an exceptionally long lifespan.

Longevity is a key pillar of our sustainability philosophy: products that last longer have a smaller ecological footprint. That is why nearly all components are designed to be replaceable, allowing your parasol to be restored to an as-new condition.

Our aluminium structures are fully recyclable and manufactured with minimal waste. The fabrics are colourfast, UV-resistant and easy to clean, reducing the need for frequent replacement.

In addition, we focus on efficient production processes in Belgium, guaranteeing high quality while limiting transport impact and supporting sustainable employment.

Prostor continues to invest in innovations that save energy and materials, while further enhancing design and ease of use.
